### Match No. 8

Date: **16<sup>th</sup> October 2005.**

Venue: **Staplehurst Reservoir, Kent.**

Conditions: Once the early morning mist burnt off it turned into a very warm & sunny day, however for those competitors on the shaded side of the reservoir it remained quite chilly! Hardly any wind to speak of with just a slight breeze at times. The water level still remains low, approximately 5' down from full water mark.

Summary: The turn out was again low for the venue, a few regular faces missing, again everyone caught mainly mixed bags with a number of carp to boost the weights. A few of the larger fish were lost on the light match gear. Those carp that were landed kept Barry busy running along the banks each time to weight them! Turned out to be very hot day for the time of year, some even got sunburnt. The low water certainly didn't stop the fish from feeding.
