2009 Summer League.

Match No. 9

Date: **8th August 2009.**

Venue: **River Medway, Watlington, Kent.**

Conditions: A cloudy but warm start to the day, a bit damp under foot with the over night dew. The day remained sunny & hot with a very light breeze developing. The water level was slightly down & about 18" visibility. Despite the busy late morning river traffic there were no speed problems with the boats.

Summary: Again an excellent turn out. Majority of bags contained Roach, Bleak, Perch & Skimmers with the odd few good Bream tipping the scales. Jim had a good result in the last peg in the second field with a fine mixed bag of Bream, Skimmers & some good Roach. 'Young gun' Richie showed a lot of the older hands the way with a creditable 3rd place in the first swim. All methods produced, Pole, Wagglers & Feeder, red/bronze maggots, pellet, bread & worm being the most used & productive baits.

A number of competitors were restricted due to the overhead trees & branches. Barry was reduced to underarm flicks using the feeder which did effect the catch rate! Hmm... me thinks the October work party with a bit of branch trimming will be being necessary. Steadily feeding in of hemp certainly encouraged the Roach to feed. Once again the Pike were feeding with Kevin & Tony enjoying the sport.

A thank-you to Don for strimming the swims earlier in the week, made things a lot easier for us all.
